patient checklist for sleep apnea appointment

Most medical insurance companies will pay for oral appliances to treat obstructive sleep apnea but may require a pre-certification before we begin treatment. You may wish to check with your provider before your appointment. The code that most insurance companies use is E0486. Prior to fabrication of any appliance you will be required to have all dental treatment completed. Any change in dentition may require fabrication of a new appliance.

Please feel free to contact us if you have any questions at (614) 443.4400.

Please bring all of the following to your appointment or you may be rescheduled:

- Current sleep study (Within 5 years)
- Letter of medical necessity from either sleep physician or primary care physician
- Medical insurance card
- Completed sleep apnea questionnaire
- Signed CPCP intolerance form
- Signed informed consent form
